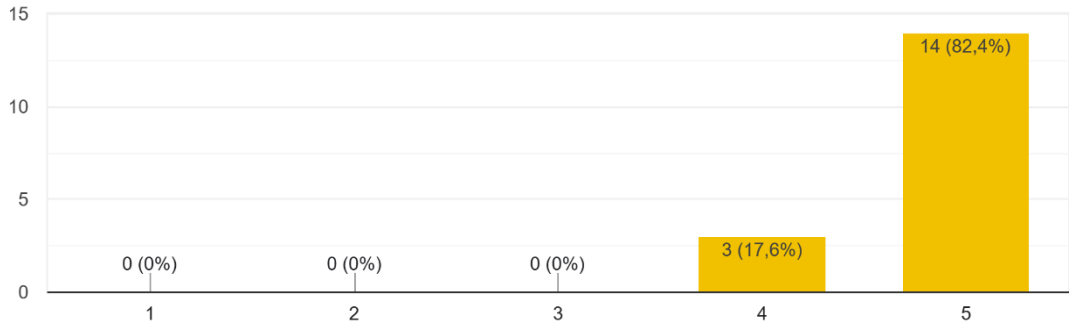
SURVEY RESULTS

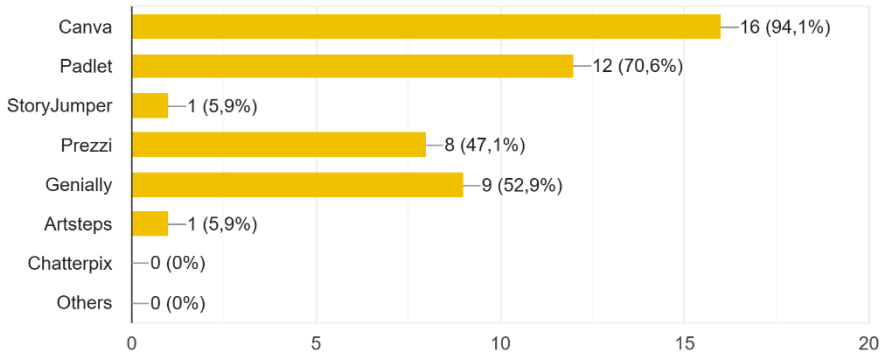
1. How satisfied were you with your participation in the Erasmus and eTwinning project?

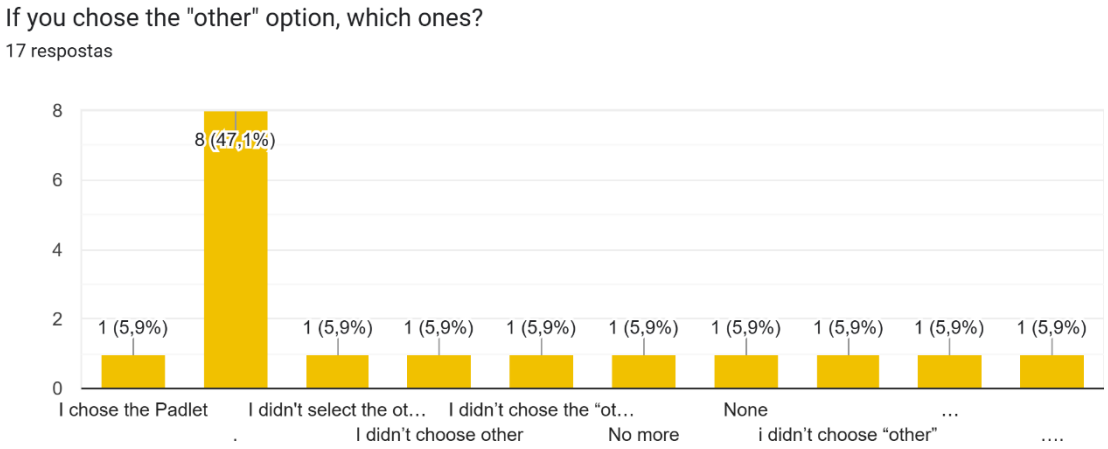
17 respostas



2. What were the digital tools that you liked to use the most? (select only 3)

17 respostas





3. During the mobility in which you participated, what were the activities you most enjoyed doing?

Rafting

The deer feeding and hanging out time

The all mobility to Turkey overall, no favorites I think

walking through the city

Everything

Rafting

Explore the city of Istanbul

Afternoon club, visit Granada

During the mobility I participated in, I liked to do all the activities in general, but rafting and Auschwitz were my favorites activities

The trip on the boat and all the mosque that we visited, in Istanbul.

Get to know the monuments and culture of Istanbul

Collaboration between all partners

The visiting Madrid and Toledo and the debate

It was visiting monuments. Socialize with different people from around the globe and learn new cultures.

visiting the city and spontaneous hang outs with the other students

Going traveling

4. During mobility, what were the activities you least liked to participate in?

None

I liked them all

Staying at the school, even though I still liked it

Nothing

Staying in the school

Nothing

Nothing

Wooden church

During mobility, the activity I least identified with was the lecture on baskets

I think I like all the activities because i believe that we could learn something with the activities.

Nothing.

I liked everything

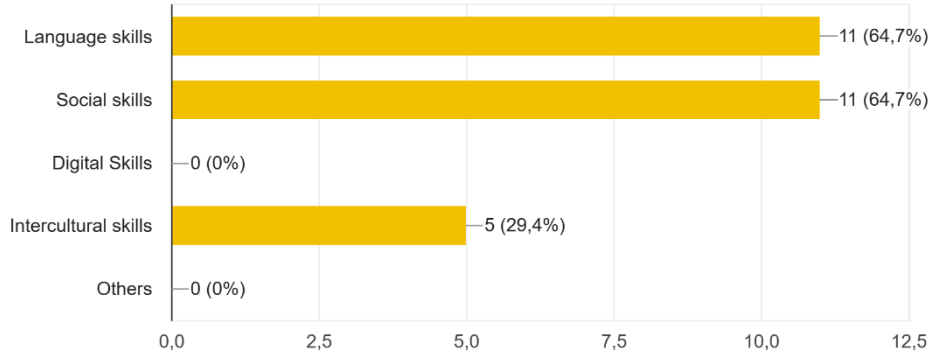
No one, I enjoyed everyone

Staying in school

Staying at school

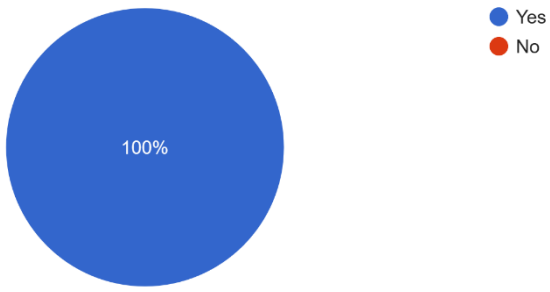
5. Indicate the main skills you developed with this project.

17 respostas



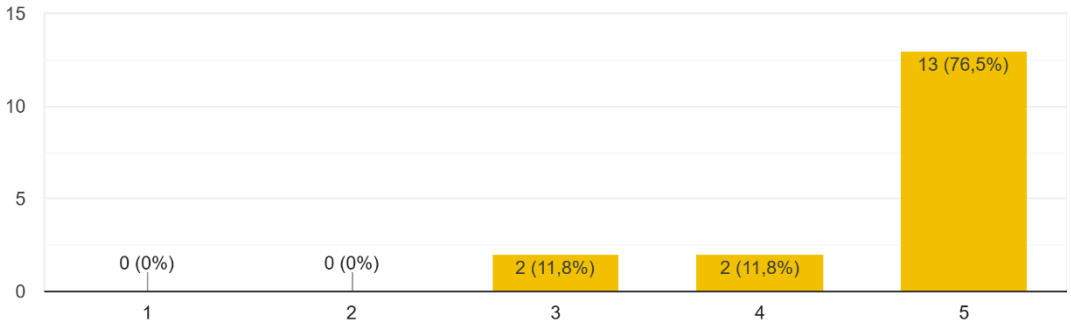
6. Do you feel that participating in this project has improved your learning in the different subjects? (English, History, Geography, ICT, Citizenship and Development...)

17 respostas



7. Would you participate in an eTwinning project again?*

17 respostas



8. Please indicate improvement suggestions for future eTwinning and Erasmus+ projects.

Better organization and more socialization from teachers to students (Mobility to Spain).

None, I loved it.

More organized schedule (Mobility to Spain).

Travel with more students.

I don’t think there’s any improvement to be made.

Have more meals together, do more activities like the afternoon at the club.

Inclusion of students with special needs.

Raising awareness about the Erasmus program would help reach a wider audience, many students are still not aware of the opportunities that the program offers.

Continue with the good job because it was al great.

I have no idea.

Greater diversification of participants.

Better organization of the activities (Mobility to Spain)

Make the project last more time.

Better activity planning (Mobility to Spain).
